

Rotators

There are various applications available for lift truck accessories. For example, the forklift rotator can help lifting, moving and rotating drums and barrels. Various attachments can be used so as to pick up carpet rolls and cartons, for dumping sand or waste materials. A few of the most regularly used lift truck attachments are the rotator, clamp, side shifter attachments and fork positioner. These tools come in different measurements to fit various forklift units. They are designed to hold really heavy items and are a benefit to many factory and warehouse environments.
